PROFESSIONAL SUMMARY

Computer Science Engineering student (B.E., 2027) with hands-on experience building Python REST APIs using FastAPI, SQLAlchemy and SQL databases. Built a Geospatial File Measurement API that processes KML and zipped Shapefile data using GeoPandas, Shapely and PyProj, with Pytest-based testing. Also built full-stack applications with React, TypeScript, Node.js, PostgreSQL and JWT-based role access control. Seeking a Software Development Intern role to work on backend services, APIs and geospatial data systems.

PROJECTS

Geospatial File Measurement API | Python, FastAPI, GeoPandas, Shapely, PyProj, SQLite

- Developed a REST API to upload and process KML and zipped Shapefile datasets, extracting feature geometries, properties, and coordinate reference system (CRS) information.
- Implemented polygon area and LineString length calculations using projected coordinate systems to obtain measurements in square metres and metres.
- Integrated SQLite and SQLAlchemy to persist file metadata and feature measurement results, with endpoints to retrieve stored records.
- Added input validation and automated API and measurement tests using Pytest.

Mini ERP/CRM — Full-Stack Web Application | React, TypeScript, Node.js, Express, PostgreSQL, Prisma, JWT

- Built a role-based ERP/CRM system for managing customers, products, inventory and delivery challans.
- Implemented JWT authentication and role-based access control (RBAC) for Admin, Sales, Warehouse and Accounts users.
- Built REST APIs using Prisma transactions to apply stock movements and challan confirmation atomically; documented endpoints in Postman.

FocusFlow — Full-Stack Personal Productivity Platform

Tech: HTML, CSS, JavaScript, Python, FastAPI, SQLAlchemy, PostgreSQL, Supabase, Vercel, Render
Developed a responsive productivity platform with task management, Pomodoro timer, productivity heatmap, progress tracking, task history, and quick notes.
Built a FastAPI REST backend with SQLAlchemy and PostgreSQL, implementing CRUD APIs for cloud-backed task persistence through Supabase.

EDUCATION

Grade / Degree	INSTITUION	YEAR	PERCENTAGE / CGPA
B.E	**Dayananda Sagar Academy of Technology and Management**	**2027**	**8.48**
Class 12	**M.E.S P.U College , Sirsi**	**2023**	**89.83%**
Class 10	**St. Anthony High School , Don Bosco Institution Sirsi**	**2021**	**94.56%**

SKILLS

Languages: Python, SQL, JavaScript, TypeScript
Backend: FastAPI, Node.js, Express.js, REST APIs, SQLAlchemy, Prisma
Databases: PostgreSQL, SQLite
Software Engineering: OOP, DBMS, Data Structures & Algorithms, Database Transactions, RBAC
Frontend: React, HTML, CSS
Testing & Tools: Pytest, Postman, Git, GitHub
Geospatial: GeoPandas, Shapely, PyProj, CRS transformations

CERTIFICATIONS AND TECHNICAL ACTIVITIES

- **Certifications :** Introduction to Backend Development with FastAPI , Certification (Coursera) ;
  Python Bootcamp Certification and DSA with Python Certification (Udemy) ;
  Introducing AI Fundementals (SAP Learning) : Certificate Link
- **CyberSecurity Activities :** Participated in CloudSec cybersecurity workshop ; Participated in Capture The Flag (CTF) by KPMG .
- **Hackathon:** CTF Hackathon conducted in Alvas Institute of Technology Moodabidri . and IOT hackathon conducted in DSATM Bangalore .
- **Coding Profile :** Solved 30+ Leetcode problems **:** /leetcode.com/u/Mohammed_Salim_khan/
- Completed multiple academic software development projects involving Python, web development and cybersecurity.
